Curriculum Vitae

Name   Oscar Enrique Gonzalez Escurra
Phone number   +595986747136
Email   oscargonzalez159@gmail.com
Date birth   09/12/97
Nationality   Paraguayan - Italian

Experience

2019 july – march 2020 **Junior developer at Alpha Software**
Design and implementation of modules for ERP systems written in VB.NET and used the SQL Server database. The systems were for sales where invoicing, accounting, among others were handled and reports were generated with Crystal Reports.

2020(march - august) **Developer at Tecnoterra**
I was in charge of continuing the development of a livestock management system, where I had to test and correct the system and design and implement new modules, it was a web system written in C # and Javascript, the database system was SQL Server and also had to carry out the production of the system on the servers.

2020(december-present) **Fullstack developer at Softec S.R.L**
I am in charge of developing REST APIs in Python and Php generally with the Django and Laravel frameworks, which are then connected with webs (HTML, CSS and Js), with mobile applications (React Native or Ionic) or with both. In addition, I continually collaborate on ideas and opinions about the design of the software.

Other experiences

2017   Congreso JIT-CITA 2017
2018   Assistant professor
2019   Tigo Campus Party 2019
2019   Segurinfo Paraguay 2019
2020   StartCamp Koga 2020 (second place)
2021   Open source project using **Django & Docker**:
            https://buscamascota.org

Education

2004-2015   Colegio de San José - Bachiller Técnico en Administración De Negocios
2016-Present   Universidad Católica "Nuestra Señora de la Asunción"
                Facultad de Ciencias y Tecnologías
                Informatics Engineer
                 (5th year)

Skills

Programming   C/C++/C#, Python, Java, VB,Javascript , mobile Ionic and React Native, REST API frameworks like Django and La ravel
Databases   SQL Server, PostgreSQL, MySQL, Google FireCloud, I know how to implement relational designs and I have a facility to perform complex SQL queries.
Tools and interests Git, Jira, Linux, Open Source, Code reviews, TDD, Clean Code,

Docker

Languages
Spanish   Native speaker
English   Advanced
Italian   Basic
